## **PRESIDENT'S REPORT**

Dave is taking a well earned fishing break out at Great Barrier.

## **FISHING REPORT**

### **Auckland / Waikato**

Andrew, Barrie and Lloyd headed down to the Kaniwhaniwha Stream just out of Whatawhata over the holiday break for an expeditionary trip. Unfortunately the fishing was

extremely hard but they did learn a lot about this little Stream. Where to go, what water looks most promising and probably what time of year would suit the area best.

*Lloyd in action with his favourite fiberglass 5wt on the Kaniwhaniwha Stream near Whatawhata. Photo courtesy of Barrie Barnes.*

Other Waipa tributaries are running at full summer low flows and the water is starting to seriously heat up. The same is happening for the Ohinemuri and its tributaries. If you are fishing any of these areas then target the ripply water at the head of the pools or the broken pocket water in between the boulders on the small rapids.

Another report has recently come in that the upper reaches of these tributaries have been fishing well with numerous good size Trout coming up for the dry.

## **Rotorua**

A recent visit to the Ngongotaha saw this river running fairly low and fishing quite hard. The Trout were there, including some BIG Browns, but they had been subject to a lot of fishing pressure over the holidays and so tended to be in quite inaccessible spots and hard to cast to. That being said there were still fish in the deeper shaded pools that were willing to bite. Natural nymphs had best results with green bodied flies and Hare & Coppers doing the damage.

Russel has been jigging out on Lake Rotoiti with Pat Swift last week and again it was harder than normal but he did manage to land 7 with the best being this 6.5pd Rainbow below.

## **Taupo Region**

Tongariro River – They are looking up! Good reports of solid fish (and a bunch of tiddlers) taking the dry fly regularly.

Other Rivers – Sorry, no reports coming in on these.

River Mouths – Slow fishing but those being taken are absolute crackers. Flies to use, Grey Ghost and Jack Spat smelt patterns.

Lake Otamangakau – Some spectacular fish coming out of here with the best being a 14pd Rainbow taken by local Guide Graeme Dean.

*Jimmy with a fat 7pd Otamangakau Rainbow taken on last months Big O Trip. Photo courtesy of Jimmy Teen.*

## **Saltwater Report**

Legal Snapper on the fly have been hard to come by recently but there are some nice Kings hanging around. Get out on your boat, or wander down your local beach early in the morning or late in the evening and give it a go. You might just catch dinner.

Also, some good reports starting to trickle in of nice Snapper in amongst the mangroves. A recent visit to Meola Reef at low tide by a Club Member saw 17, yes 17, other salt water fly fishers out there. When it gets that busy it's time to start doing some exploring and find some less busy water where you can cast your flies in a little peace.

*When you head out on the sea you just never know what you are going to catch. For Russell it was a small Shark. Not a lot of big runs but a heavy pull was how he described the fight. Successful fly, a Pink and White Pat Swift Booby. Photo courtesy of Russell Nelson.*

### **Fishy Tales**

- If you do have a report, success story, or anecdote to share then just send it to [iconpromote@gmail.com](mailto:iconpromote@gmail.com) . Happy Fishing and Tight Lines – Freddy Da Fish.

## **LAST CLUB NIGHT**

We had a very enjoyable Christmas Meeting with good food, good company and many a fishy tale exchanged.

## **NEXT CLUB NIGHT – 18<sup>th</sup> FEBRUARY 7.30 PM**

As usual there is no Meeting in January.

The Next Meeting is in February and we hope to see you there.

The address is: Birkenhead RSA, Recreation Drive, Birkenhead.

To enter you can either go through the front doors, continue straight ahead and then take the stairs (or lift) on your right to go downstairs. Alternatively, you can walk downhill around the back of the RSA and come in through the side doors that lead directly into the Meeting Room.

Refreshments are available at the main Bar upstairs, immediately on your right as you enter through the main front doors. There is plenty of parking.

This month's Meeting we are having a series of excellent instructional videos that are full of useful tips no matter what level your fish catching ability may be.

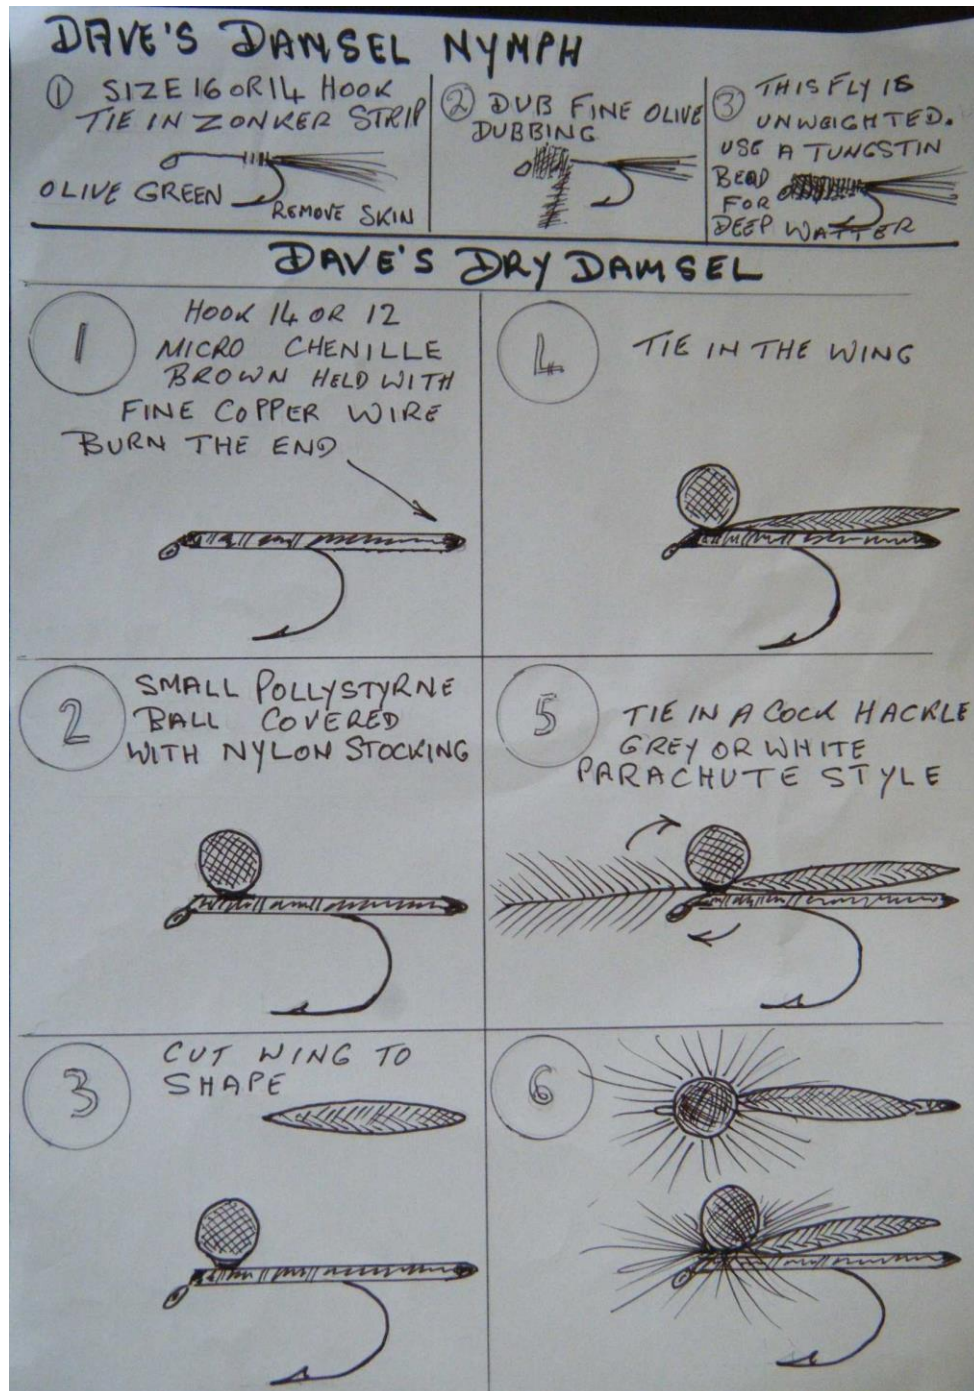

## **QUOTABLE QUOTES**

*In certain circles, it is rumored that anciently there was a fly pattern that possessed such magical fish-catching mojo that no fish could resist its siren-esque call. A fly with material so secretive that it was said there existed only one source of it hidden high in the Andes of Patagonia on the testicles of a golden Guanaco. A fly pattern so powerful that any angler who should possess it was assured of 100 fish days and to whom women instinctively flock like the salmon of Capistrano.*

*Curtis Fry - flyfish.com*

Heading to a Lake somewhere this summer? Try tying this dry fly. It is Dave McLellan's Damsel. There is a reason Dave was the Dry Fly World Champion.... He casts beautifully, reads the water very well, and uses flies that work!

## **FISHING BUDDIES SOUGHT**

The intention is to display a list of names of Club Members that are keen on finding a 'buddy' to go fishing with, either on a regular basis or just for a day. In essence it's a fly-fishing dating service...

## **CHOOSING THE RIGHT FLY ROD**

Our own resident webmaster Phil Gates, has put a couple of very helpful videos onto the Club Website, [www.nsff.org.nz](http://www.nsff.org.nz) . They are both by Tim Rajeeff, a world champion fly caster. One is about ‘Choosing The Right Fly Rod’ and the other is about ‘Light Vs Heavy Weight Fly Rods’. These are excellent informative videos and both are under 3 minutes long, so they are short, and to the point. Check them out.

## **INFORMATION SHARING**

As well as having a guest speaker on Club Nights we would like to give an opportunity for some of our own Club Members to share knowledge on any fly fishing subjects.

### **Member Speakers**

Besides having a major Speaker on Club Nights we would like to have some of our own Club Members to speak on any fly fishing subject for 10 – 15 minutes or so.

Some subjects could be:

Local fishing spots.

National / Taupo fishing regulations.

Riparian rights, access.

Clothing and equipment ideas / tips.

Saltwater fishing, what rods / flies.

So, Members please get out there and do some research to enlighten us all.

## **WHY WE FISH**

*Somewhere in the wide range of activity between the hard physical effort of wading for long hours against a swift current in a rocky stream, casting steadily, and the indolence of lying quietly in the sun waiting for a bobber to go under there is a type of angling to suit everybody's mood and everyone's pocketbook. Fishing is wherever it is found....Anglings problems are never solved*

*Lee Wulf - 1999*

## **WEBSITE ARTICLES REQUEST**

As many of you will know, Barrie Barnes has started up his own online fly fishing store and he is keen for articles and pictures to put into his Blog section. What he is looking for

is simple short little articles and a picture, ie: ‘Bob and I headed down to Turangi last weekend and ...’ So if you have something you would like to share please contact Barrie on [barrie@flyfishinginxs.kiwi](mailto:barrie@flyfishinginxs.kiwi)

### **“BROWN TROUT TROPHY” COMPETITION RULES**

Winning fish will be determined by weight.

Verification by partner where possible and/or by photograph.

Details to be provided to any committee member.

Competition period May 1st to April 30th. Prize awarded at AGM in May. Winner’s name and weight of fish to be published in June club newsletter.

## **NORTH SHORE FLY FISHERS CLUB SALT WATER FLY FISHING COMPETITION RULES**

The “essence” of the competition is to encourage club member participation and in the process, to award a winner’s trophy to the individual who catches the greatest number of salt water species. It will run from 1st May in one year to 31st April in the next year with the trophy awarded at the following AGM.

For the full rules please refer to the Club Website [www.nsff.org.nz](http://www.nsff.org.nz)

### **CHANGES TO CONTACT DETAILS**

Committee members organising club trips and similar events are finding that the phone and email information that we hold for some members has become out of date. If you have changed your address, landline number, mobile number or email address in the last year or so and have not passed the new details on to NSFF, could you please advise John Cuthbertson by email, his **new** email address is [john.cuthbe@gmail.com](mailto:john.cuthbe@gmail.com) .

### **CLUB TROPHIES**

**Brown Trout Trophy** – This is awarded to The Heaviest Brown Trout caught by a Club Member during the year – May 1<sup>st</sup> to 30<sup>th</sup> April. Current holder is **Roy Richardson**.

**Chain Snore Trophy** – A fun award given immediately after any Club Trip to the person who has done the ‘funniest’ thing over the weekend. If nobody has had anything like this happen it may be awarded to the worst snorer.

**Ian Hunt Memorial Trophy** – Heaviest Trout caught fly-fishing by a Club Member during the Pupuke Challenge Competition. A competition run every year to promote the Lake Pupuke fishery. Current holder is **Lucas Bathurst**.

**I Love Flyfishing Trophy** – Awarded to the Club Member who has caught the most species of Saltwater fish fly-fishing over the year – 1<sup>st</sup> May to 30<sup>th</sup> April. Current holder is **Simon Hoole**.

**Rodd And Gunn Trophy** – This is the Club Competition which takes place over two days. One Day on a Lake and one day on a River. Current holder is **Simon Hoole**.  
The Lake part of the competition has its own Trophy, the **I Love Flyfishing Stillwater Trophy**. Current holder is **Simon Hoole**.

## **FLY TYING TUITION**

### **Are You Interested In Fly Tying?**

On Tuesday the 3<sup>rd</sup> we had our fourth Fly Tying Tuition Session at the RSA.

Initially these classes are more for those who are beginning or have done very little fly tying. We are starting with basic nymph patterns, this month it was Hare and Coppers, and Pheasant Tail Nymphs, and then move on to other patterns like wee wets and streamers.

The Class is held in the small meeting room upstairs at the Birkenhead RSA once a month, on the first Tuesday of the month, and starts at 7pm.

For participants the only requirement is to turn up, bringing a fly tying vise if you have one. For the evening tuition, everything else, materials, hooks etc. will be provided.

The provision of materials requires that the club knows before each evening the number of members that will be attending. So please register your interest by email to [barrie@flyfishinginxs.kiwi](mailto:barrie@flyfishinginxs.kiwi) by 29NOV19. A follow up email will be sent directly to those who register their interest by that date.

*The first months Fly Tying Tuition in action.*

## **CLUB TRIPS 2020**

January – Mohaka River 2020

February – Ngongotaha River and Rotorua Lakes – 28<sup>th</sup> 29<sup>th</sup> FEB 1<sup>st</sup> MAR 2020

March – Whanganui River – Club Competition Trip 2020

March – Lake Otamangakau – 27<sup>th</sup> 28<sup>th</sup> 29<sup>th</sup> MAR 2020

May – Ngongotaha River and Rotorua Lakes MAY 2020

July – Tongariro and Tauranga Taupo JULY 2020  
November – Lake based Club Competition Trip – NOV 2020  
November – Tuition weekend (Held if enough 'novice' anglers are interested)  
December – Lake Otamangakau – DEC 2020

The NSF committee arrange various Club Trips over the year to different parts of the country. If you would like to be involved, or have an idea for a trip please let one of your committee know.

### **FEBRUARY CLUB TRIP TO NGONGOTAHA AND ROTORUA AREA**

This year's February Trip to fish the Ngongotaha River and the Rotorua region is on the weekend of Thursday 27<sup>th</sup>, Friday 28<sup>th</sup>, Saturday 29<sup>th</sup> February and Sunday the 1<sup>st</sup> of March. We will again be staying at the Paradise Valley Lodge. Costs will be \$105.00 each, which will cover 2 nights' accommodation in the lodge and a BBQ on Saturday evening. If you want to come down on the Thursday, as many of us do, then simply add \$45 to make it \$150.00.

If you are keen just let me know which nights you can make asap and then pay your money to the Club in any of the normal ways.

- internet banking to the Club's bank account: North Shore Flyfishers Incorporated ASB A/c #: 12-3209-0190179-00 (please include your name and the word Ngonga as a reference);
- by cheque made out to North Shore Flyfishers Inc and posted to the Club's mailing address (PO Box 31387 Milford, Auckland 0741); or

Duncan – 021 648 956 – [iconpromote@gmail.com](mailto:iconpromote@gmail.com)

### **SALTWATER EXCURSIONS**

The possibility of Club Trips to the Meola Reef and to the Mangawhai Estuary has been raised earlier. With summer approaching, we would like to establish an Email Contact Group for those members interested in shore-based saltwater fishing to these or similar destinations. This sort of venture is tide and weather dependent and can only be organised at short notice. If you would like to be included in this group, please tell Dave Symes ([dssymes@xtra.co.nz](mailto:dssymes@xtra.co.nz)).

### **JOKE OF THE MONTH**

A couple, both age 78, went to a sex therapist's office. The doctor asked, "What can I do for you?"

The man said, "Will you watch us have sex?"

The doctor looked puzzled, but agreed.

When the couple finished, the doctor said, "There's nothing wrong with the way you have sex," and charged them \$50.

This happened several weeks in a row. The couple would make an appointment, have sex with no problems, pay the doctor, then leave.

Finally, the doctor asked, "Just exactly what are you trying to find out?"

"We're not trying to find out anything," the husband replied.

"She's married and we can't go to her house. I'm married and we can't go to my house. The Holiday Inn charges \$90. The Hilton charges \$108. We do it here for \$50...and I get \$43 back from Medicare.

## **AUCKLAND/WAIKATO REEL LIFE DECEMBER 2019**

It is time to get out there go for a fish  
The early December rain has kept river temperatures cool and most rivers are going to be in great shape for the summer holidays so don't forget your rod.

*Right: An empty King Country river.*

River temperatures are starting to warm up so if you plan to fish lower elevation streams it is worth investing in a thermometer.

A \$25 BBQ thermometer can save you a lot of time and hassle.

If temperatures are above 19°C move upstream or concentrate on the aerated riffles with a bit of white-water.

This is a perfect time of year to get out there as the early summer weather has kept most anglers at bay so there are still a lot of uneducated trout out there.

## Waiting On DOC To Open The Whakapapa Intake Road

Subject to the reservation as an easement in gross in favour of Her Majesty the Queen acting by and through the Minister of Conservation of a right of way over part of the abovedescribed land described as the land subject to the easement in the First Schedule annexed hereto with the rights and powers and in and upon the terms and conditions set out in the said First Schedule.

Although there is an easement allowing driving access over the Whakapapa Intake Road the Department of Conservation is responsible for informing the new landowner of the public's right to cross their farm.

The summary of the treaty settlement that transferred the former Landcorp Farm into private ownership clearly states that there is no change to public access.

"Public access, recreational use, reserve status and existing third party rights are maintained"

Despite multiple attempts by Fish and Game and New Zealand Walking Access Commission staff to contact DOC about the issue there had been no response until recently.

Fish and Game staff are hopeful that we can work with DOC and the new landowner to open the Whakapapa Intake Road in the new year.

What most anglers and hunters don't realise is that the southern access to the 42nd traverse (Kapoors Road) crosses the same farm and could be shut in a similar manner.

The loss of access to highly valued Crown land through treaty settlement would be a disappointing precedent in terms of public access to Crown land.

But allowing DOC to give away vital public access post-settlement would be unthinkable to most outdoor enthusiast.

Rest assured Fish and Game staff are working diligently on this matter and hope to resolve the issue soon.

## Tokoroa Puts On A Massive Take A Kid Fishing Day

The Tokoroa Sports Fishing Association has put on another huge kids fishing day.

The event was likely one of the biggest kids fishing days ever held and got over 300 kids and parents down to Lake Moanna-nui to chase the 3+ kg rainbows in Tokoroa's local fishing hole.

The biggest fish of contest was a 3.3 kg rainbow caught Rielley Alloway.

Fish and Game marked and released 50 adult fish prior to the contest and only 3 of the fish were caught indicating there are a lot of big rainbows still lurking in Tokoroa.

*Dylan Harpur with a 2.2 kg rainbow*

## EASTERN REEL LIFE DECEMBER 2019

Although we are technically in summer, we've had a full range of 'spring-like' weather patterns here in the Eastern Fish & Game region over the last couple of weeks.

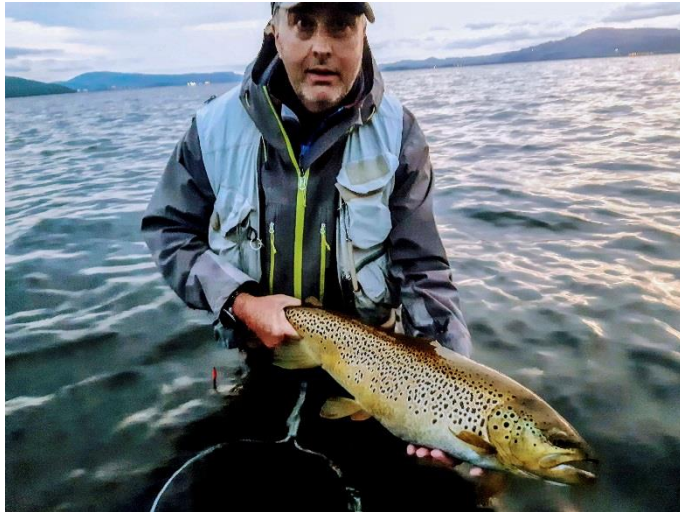

A heatwave has been followed up with a big dose of rain, wind and some rather chilly temperatures.

As we approach the festive season and the weather gets back to 'normal', anglers can expect more typical fishing opportunities in the region.

Lake Rotorua's surface temperature currently sits about 20 degrees which is driving browns and rainbows into the cool refuge of the stream mouths.

This pattern is right on cue for the time of year and we expect it to be a bumper season at the Hamurana, Awahou, Waiteti and Ngongotaha stream mouths.

*Anglers are already picking up some nice specimens as shown here by Stephen Flint's double-digit brown from Hamurana early one evening (right).*

A thermocline on the regions deep lakes has been developing slowly over that last few weeks and currently sits between 10 and 15 meters from the surface.

Smelt schools can be seen building here and larger trout are often found just below them ready to ambush from below.

Lake Rotoiti continues to produce some excellently conditioned fish, as does a much improved Tarawera and Okataina.

High country rivers and streams received a well needed fresh this week with levels and temperatures becoming a concern.

### **Check, Clean, Drain And Dry!**

With the holidays fast approaching this is a good time to remind anglers of the importance of doing our bit to prevent the spread of pest species.

Catfish are in Lakes Rotoiti and Rotorua and it's critical we prevent them from entering other waterways in the region.

If you are boating on any of the lakes, carefully check your boat and trailer including the anchor and anchor well for signs of fish, eggs or weed fragments.

Clean off any obvious foreign materials, drain any water and dry before entering another waterway. The lakes are ours to look after!

## **Tagged Trout**

Datawatch tagged trout can now be entered online.

Entries go into the draw to win one of 20 free whole season fishing licences.

<https://www.surveymonkey.com/r/QCH5ZR6>

## **Eastern Region Fishing Diaries – All Lakes And Streams**

Fill in your fishing diaries here to help us manage the Eastern Fish & Game region. Participants go in the draw to win a \$100 voucher from Kilwell:

## **Tight Lines**

Mark Sherburn, Eastern region Fish & Game Officer.

## **2020 FISHING LICENCE PHOTO COMPETITION**

Don't forget your camera or mobile phone on your next fishing trip.

You could find one of your photos on the front of the 2020/2021 Fish & Game fishing licence and part of the \$4,000 prize package supplied by Kilwell Sports.

There are 4 monthly competitions starting January 2020, each with a \$500 Kilwell voucher up for grabs.

The overall winner will be chosen from the 4 monthly winners by public vote on Facebook and go home with a \$2,000 voucher from Kilwell.

The competition launches 1st January 2020 and all entries will be through the Fish and Game website.

You can't enter until it opens in January but you can start taking photos now.

Once again thank you to all of you for your support for our great sport over the past year and best of luck for your fishing.

## **FISHING / WEATHER FORECASTING TIPS**

### **How Do You Know When It's A Good Time To Go Fishing?**

Well, there are a lot of fishing forecasters out there, Ken Ring and his Moon charts, Bill Hohepa and his Maori calendar but below is probably the best and most consistent fishing forecasting system of them all. The STONE forecast system.

<b>STONE CONDITION</b>	<b>WEATHER INDICATION</b>	<b>FISHING FORECAST</b>
Stone is dripping wet	Rain	Excellent
Stone damp on top only	Light misty drizzle	Excellent
Stone is dry	Going to rain.	Excellent
Stone is wet on bottom	Flood receding	Excellent
Can hardly see stone	Foggy	Excellent
Can't see stone at all	Dark	Excellent
Stone appears fuzzy	Walk, don't drive	Excellent
Stone upside down	End of the world	Who cares

### **EDITORS NOTE**

Happy New Year to all, and just remember, **These Are** the good old days so get out there and fill your cup up.
